Course 4

Brian Pollack

11/05/19

# Univariate Data

Univariate: single variable

Typical Situations:

-Time

-Samples from underlying PDF

Index	Value
0	33.6
1	26.6
2	23.3
3	28.1
4	43.1
5	25.6
6	31.0
7	35.3
8	30.5
9	0.0
10	37.6
11	38.0
12	27.1
13	30.1
14	25.8
15	30.0
16	45.8
17	29.6
18	43.3
19	34.6
